INVESTMENT—A legitimate proposition of worth that answers a world-cry for big demand and which is rapidly forzing to the front: shrewd investments make fortunes: opportunity, prevision and money to invest brought wealth to the initial investors in Merganthaler, Bell Telephone. Westinghouse Air Brake: we have a proposition that presents as interesting and remarkable a claim for attention as any of the above epoch-making inventions: the proposition is built on the sturdy foundation of broad, dominating patent claims already allowed, while actual daily operation demonstrates its practical merit: if you have the time and inclination to investigate, the judgment to determine its soundness, the money and nerve to invest; the opportunity to receive large returns from a small investment awaits you; we are ready to submit full particulars to any one with \$100 or more to invest; this is your chance; act wisely and quickly; it costs nothing to find out all about this proposition.
